USB microphones:

Remaining one of the most popular solutions for most computer uses, streaming and in our case today.

Camera microphones:

Those filming outside with their camera or even indoors without a computer near may need an external microphone for their unit.

Lavalier microphones:

These are the little clip-on mics we've seen more common in non-intrusive interviews, seminars and performances, and more.

Mobile microphone:

Even though it's definitely rare, we do know of quite a few YouTubers who make their videos on their phones!
